5 Advantages and Disadvantages

List of Advantages

- Key benefits to a vehicle management system
- The entire fleet on a single screen, in real time
- Vehicle status, readily available
- Driver and vehicle safety and reliability
- Improved fuel efficiency, minimized fuel fraud
- Improved lifespan for vehicles and equipment
- Better reporting on driver behavior, work hours and vehicle performance
- Reduced maintenance and labor costs
- Tax deduction and insurance benefits
- Improved capacity, more growth
- Driver satisfaction and retention
- Better customer service, happier customers

6 Application

- The Vehicle Management System with its friendly features makes the application easier and highly usable on daily basis.
- This system comes with both mobile app and web portal versions to ease the need of the users.
- Agaram Infotech with the core focus of providing a precise solution develops the vehicle management system to suit every individual need of our clients.
- The main objective of this application is to make the user's task easier by enabling easy maintenance of the renewal insurance, revenue licenses and other elements involved.

7 Conclusion

Our project is only a humble venture to satisfy the needs to manage their project work. Several user friendly coding have also adopted. This package shall prove to be a powerful package in satisfying all the requirements of the school. The objective of software planning is to provide a frame work that enables the manager to make reasonable estimates made with a limited time frame at the beginning of the software project and should be updated regularly as the project progresses.

8 Future scope

- Vehicle Management is the process of planning various types of vehicles.
- Vehicles include wagons, bicycles, motor vehicles (motorcycles, cars, trucks, buses, mobility scooters for disabled people), railed vehicles (trains, trams), watercraft (ships, boats, underwater vehicles), amphibious vehicles (screw – propelled vehicles, hovercraft), aircraft (airplanes, helicopters, aerostats) and etc...
